

LGBT Couples Counselling

A Safe Place to Bring your Relationship...

Whilst it's true that any couple may be able to work with any couples' counsellor, it's also true that lesbian, gay, bisexual, transgender & mixed-orientation couples may prefer to work with a counsellor who identifies as LGBT.

Bringing your relationship into counselling may be the most courageous decision you both make together. Trusting **Dean Richardson, MBACP(accred), UKRCP Reg.**, as your fully qualified & experienced LGBT couples' counsellor, may be just the right decision for you.

Whether preparing to separate or wishing to rebuild that which has been lost, we can do it ... together.
